

Confidence, Work Ethic, Accountability and Teamwork

ESCONDIDO FIRE DEPARTMENT

FIRE EXPLORER PROGRAM

Fire Exploring is a career education program offered by the Escondido Fire Department in partnership with Learning for Life.

Fire Exploring gives young men and women ages 15-21 years old valuable insight into the fire service profession by offering hands on career activities and training.

The program also builds confidence, work ethic, accountability and teamwork through mentorship from professional firefighters, many of whom started as Fire Explorers.
